Pornography and the potential impact on Young People

The internet holds sexual risks for young people from possible predators, peers and the accidental discovery of traumatic pornographic material. Reports state that the effects of exposure to pornography display a correlation between exposure to sadistic and violent pornographic images, and behaviour and attitudes. This course is essential to provide you with the information and skills required to support children and young people to stay safe in a digital world.

Topics covered in this course:

- How young people are accessing, and sometimes creating, pornography.
- The potentially negative impact pornography and sexualised images can have on a young person.
- Practical ways to support children to make healthy choices.
